PROFESSIONAL SUMMARY

Dedicated Backend Developer with over 2+ years of experience. Strong creative and analytical skills. Team player with an eye for details. Looking forward to developing products that are efficient and easy to use for the users and becoming an integral part of a tech-driven organization.

EDUCATION

Full Stack Web Development (full time), Masai School
08/2022 – 07/2023 | Bengaluru, India

Bachelor of Technology - Civil Engineering,
Cochin University of Science and Technology
08/2015 – 04/2019 | Kochi, India

PROFESSIONAL EXPERIENCE

Associate Developer, Regenesys Education

10/2024 – Present | Sandton, South Africa (Remote)

Focused on backend development using **Node.js, NestJS, and PostgreSQL**. Built and enhanced the **enrollment module**, implemented **webhooks** for real-time sync between systems, and handled **data migration** from the old system to the new platform with accuracy and minimal downtime.

Full Stack Developer, Ash IT Service

08/2023 – 07/2024 | Noida, India

Worked on an **Inventory Management System** with RBAC, product management, automated purchase orders, and dynamic invoicing. Developed the **backend for a real estate e-commerce platform** using Node.js with user authentication, property listings, owner details, and Google Maps-based search. Also handled **AWS deployment and integrations** with S3, EC2, Amplify, and Route 53.

SKILLS

Technical Skills:

Node.js| NestJs| Express| PostgreSQL| Mongoose| TypeORM| MongoDB| JavaScript| HTML | CSS| AWS

Soft Skills:

Teamwork| Adaptability| Remote Collaboration

PROJECTS

Inventory Management System

This system ensures optimal inventory control and streamlines the supply chain process for enhanced operational efficiency.

- **Features:** RBAC, Product management, dynamic currency, auto purchase order creation on reorder point etc
- **Tech Stack:** ReactJs, Chakra UI, NodeJs, MongoDB, AWS
- **Area of Responsibilities**
 - Developed the backend of Role-based access control(RBAC)
 - Developed the backend of core modules like user management, products management, sales and purchase order, dynamic invoice

Fitness Class Booking System

Enables clients to schedule appointments with fitness trainers.

- **Features:** JWT authentication for each user, Admin side that can perform all CRUD operations, Appointment booking functionality according to availability
 - **Tech Stack:** Html | CSS | JavaScript | MongoDB | Nodejs
 - **Areas of responsibility:**
 - Appointment page frontend | backend of booking functionalities
 - Login | SignUp routes | JWT authentication
- A collaborative project built by a team of 4 members in five days.
